Information About the Service

Description of the service

Yomojo 4G Home is a month-to-month included value service. This means that for a set fee, the plan provides an allowance of national mobile data.

The 4G Home service is only available in selected areas on the Optus 4G Plus network with the modem supplied by Yomojo. There may also be technical or commercial reasons that affect your ability to access the service at your address. The service cannot be used overseas. Check your coverage on our website, www.yomojo.com.au. We recommend that you position your modem close to a window to maximise signal strength.

Your actual data speed will depend on a number of factors including congestion, location, local conditions, hardware, software and general internet traffic.

Is this plan bundled with any other Telecommunications Service?

You don't need to bundle this plan with another Yomojo service however you may be eligible for discounts if you do. See how our Family Bundles work at www.yomojo.com.au/family

The purchase of a Yomojo-supplied modem is required to access the 4G Home service. Only a Yomojo-supplied device (or a device expressly approved by Yomojo) is supported and we do not warrant that the service will work if an unapproved device is used. We may suspend or cancel your service if an unapproved device is used.

What's included?

The **4G Home 200GB** has the following features:

- 200GB national mobile data
- Plan automatically renews each month
- For use in Australia

The allowance will be pro-rated for the first month. Unused allowances will expire when your plan expires.

Personal use only, Terms & Conditions and Fair Use Policy applies. www.yomojo.com.au/terms

Minimum Term
